Profile

Actuarial Advisor with 3+ years of experience in pension valuation, actuarial modelling, and data-driven financial analysis. Skilled in US GAAP and IAS 19 valuations, automation, data analytics, and cross-timezone stakeholder coordination.

Experience

Actuarial Advisor — Willis Towers Watson Pvt. Ltd. (July 2022 – Present)

- Performed actuarial valuations (Funding & Accounting) for U.S. pension plans.
- Executed data cleaning, reconciliation, and actuarial modelling for valuation cycles.
- Generated valuation reports under US GAAP and IAS 19 standards.
- Developed automated reporting workflows and improved data standardization.
- Collaborated with U.S. and Manila teams to streamline actuarial processes.
- Utilized Excel, Python, Project Engine, and JIRA for actuarial analysis.
- Supported IFRS 17 reporting and analysis for insurance portfolios, including data preparation, validation, and reconciliation.
